CANNABIS BUSINESSOWNERS

CannaBOP...for the Growing Cannabis Market

CannaBOP is built on the foundation of a traditional BOP (Businessowners Policy combining property & liability coverage), enhanced to include damage to cannabis or related equipment, or injury or damage arising from cannabis or cannabis activities.

What does CannaBOP Cover?

CannaBOP is meant to provide coverage for cannabis dispensaries, storage facilities, distributors, processors, manufacturers, and private cannabis testing facilities and laboratories.

Where is CannaBOP filed and approved?

CannaBOP is admitted in Arizona, California, Colorado, Illinois, Michigan, Nevada, and Washington state.

CannaBOP includes all the BOP coverages you are familiar with, together with the coverages **cannabis clients need**.

Are there any territorial restrictions?

For cannabis loss or liability, the coverage territory is limited to the state in which the policy was issued, and excludes activities conducted, and property located on federal land. For all other activities or property unrelated to cannabis, standard commercial coverage territory restrictions apply.
