

Regulatory Compliance

AAIS provides timely reliable insights and action on legislative, judicial, or regulatory changes that impact insurance products and services.

AAIS Regulatory Compliance professionals continuously monitor the regulatory environment in the evolving P&C industry to help ensure our Members have the most up-to-date information to maintain compliance on all products and services offered by AAIS.

Member Value

- Participation in government relations activities through associations and other national entities
 - Sharing information on impending regulatory actions with Members
 - Contributions to policymaking decisions that shape regulation
- Continuous monitoring of legislation and court decisions that trigger notifications to our Members of any changes needed
- Expedited development of compliance filings to enable Member companies to adopt solutions immediately upon regulatory approval
- Delivery of those changes with clear concise instruction on impact to products

High-Tech Delivery

- StateNet and LexisNexis Research Tools
- Member notifications via alerts and bulletins

Dedicated Service

- Attorneys with private-firm claims defense and product development experience
- Compliance professionals with decades of insurance company compliance
- Consultative reviews of programs for compliance and filing support for custom programs

Trusted and Unbiased Resource

Unlike other national advisory organizations, AAIS continues to provide a neutral, unbiased environment where data and information may be shared. AAIS is redefining Membership with an open, secure, and flexible platform that promotes scalability and speed to market while driving innovation, differentiation, and competitive advantage for all Members of the AAIS Community.

- At AAIS, “open” means transparent. We freely share our strategies, development plans, and technologies.
- “Open” means equitable, where all Members, regardless of size, realize common benefits of participation in a secure environment that fosters trust.
- Our open platform provides all Members access to the full complement of AAIS programs, services, technologies, and tools.
- The AAIS Community supports collaboration and contribution. Sharing data and information, experiences, and technologies can lead to shared success.
